

SUPER DRY™ Container Desiccant

SUPER DRY Container desiccants effectively absorb water vapour inside the container, keeping the internal air dry and preventing “container rain” or “cargo sweat” caused by condensation during extreme temperature fluctuations. This protection helps safeguard goods from mould, corrosion, packaging damage, contamination, and other moisture-related issues.

Size: 250g - 2000g

**Every year, millions of containers use
SUPER DRY container desiccant.**

Features

> 300%
Moisture absorption

> 90 Days
Continuous moisture
absorption

No leakage
Double-layer packaging,
Gelatinises post absorption

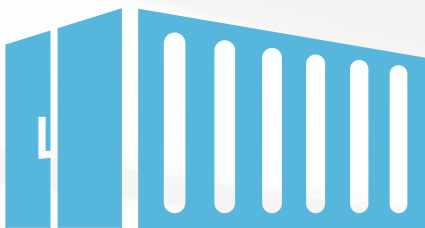

Eco-friendly
Non-toxic, DMF free,
REACH registered

**Complies with European
and American certifications**

Prevent cargo from

- Mould
- Rust
- Deformation
- Stains
- Mildew
- Softening
